From: Pat Branson, Executive Director

Thanks to both of you for coming to the Kodiak Senior Center and meeting with our Senior Citizens of Kodiak, Inc. Board of Directors before the legislative session began. As was discussed at that time, SCOK has a few capital needs for the center. There is a mix of smaller and larger projects. The capital list has not been prioritized by the Board of Directors. I can write up project descriptions and needs for you when you need them. All of the items are safety and accessibility related.

Of course we will continue to seek grant opportunities and write proposals for any deferred maintenance or capital funds for which our agency qualifies. We have done this in past years and have been successful in receiving funding for capital projects.

Please let me know what other information you might want. Thank you for your consideration and time.
